

timetracker lite
free timesheet CRM

track time spent on project and activities

Introduction

TimeTracker Lite is a simple ready to use Free Time Sheet software that enables you to track time spent, on various project or activities and increase productivity.

Generally Professionals such as designers, consultants, architects etc, charge client on time and material basis, or on fixed cost. In both cases, it is important to track the actual time spent versus the estimated.

Since managing time in excel has its own limitation, its tedious, less organized and information is not readily available. TimeTracker lite provides you easier way to track project time, and also lets you understand total time spent on each project/activity, identify actual time spent versus estimated, identify time consuming activities, get summary of time spent during the month.
